

## Annex

**Range of NHI Chronic Diseases**

Name of Disease (Code No. for Diagnosis and Treatment)	
1	Cancer (12)
2	Endocrinopathy and metabolic diseases Dysthyroidism (05) Diabetes (01) Hyperlipemia (19) Wilson's disease (48) Gout (07) Pemphigus (30) Dermatomyositis (31) Hyperprolactinemia (43) Congenital dysbolism (52) Dyshormonism induced by adrenal lesion (70) Dyshormonism induced by hypophysis lesion (71) Sexual Precocity (72) Parathyroidism (80) Hypogonadism (93)
3	Psychiatric diseases Mental illness (47)
4	Neurological diseases Brain tumor complicated with neurotic dysfunction (73) Parkinson's disease (16) Amyotrophia (49) Other central nervous system disorder and hereditary diseases (54) Multiple sclerosis (55) Infant cerebral palsy and other paralytic syndromes (56) Epilepsy (15) Myasthenia gravis (51) Distal sensory polyneuropathy (74) Plexopathy (75) Trigeminal neuralgia (76) Migraine (77) Spinal cord injury (81)
5	Circulatory system diseases Heart disease (11)

	Hypertension (02) Cerebrovascular dysfunction (14) Atherosclerosis (57) Arterial thrombosis (58) Raynauds disease (26) Kawasaki disease complicated with cardiovascular abnormality (78)
--	---

Name of Disease (Code No. for Diagnosis and Treatment)	
6	<p>Respiratory system diseases</p> <p>Chronic nasal sinusitis (45)</p> <p>Chronic bronchitis (10)</p> <p>Emphysema (20)</p> <p>Asthma (06)</p> <p>Bronchiectasis (22)</p> <p>Chronic obstructive pneumonia (21)</p> <p>Pneumoconiosis (58)</p> <p>Exopathic pulmonary diseases (60)</p> <p>Allergic rhinitis (82)</p>
7	<p>Digestive system diseases</p> <p>Digestive ulcer (08)</p> <p>Hepatocirrhosis (25)</p> <p>Chronic hepatitis (03)</p> <p>Functional gastrointestinal disturbance (including chronic pancreatitis, gastrointestinal polypus, Irritable Bowel Syndrome, erosive gastritis and enteritis, and chronic colitis) (23)</p> <p>Chronic cholecystitis (18)</p>
8	<p>Urinary system diseases</p> <p>Chronic nephritis (04)</p> <p>Renal infection (61)</p>
9	<p>Musculoskeletal system diseases</p> <p>Arthritis (09)</p> <p>Polymyositis (50)</p> <p>Osteoporosis (27)</p> <p>Lupus erythematosus (24)</p> <p>Chronic osteomyelitis (95) (diagnostic basis: X-ray, or CRP and ESR examination (if antibiotics are needed)</p>
10	<p>Eye and adnexa diseases</p> <p>Glaucoma (33)</p> <p>Xerophthalmia (34)</p> <p>Retinal degeneration (35)</p> <p>Macular degeneration (36)</p> <p>Uveitis (37)</p> <p>Vitreous hemorrhage (38)</p> <p>Corneal degeneration (39)</p>

11	Infectious diseases Tuberculosis (17) Onychomycosis (29)
12	Congenital malformation Congenital malformation disease (62)

Name of Disease (Code No. for Diagnosis and Treatment)	
13	<p>Skin and subcutaneous tissue diseases</p> <p>Dry tinea (28)</p> <p>Systemic eczema (32)</p> <p>Lyme disease (bird's leg disease) (79)</p> <p>Leukasmus (83)</p> <p>Sebaceous dermatitis (84)</p> <p>Amyloid deposits (focus area &gt; 30% of the whole body surface area) (85)</p> <p>Pemphigoid (86)</p> <p>Dermatitis herpetiformis (87)</p> <p>Familial benign chronic pemphigus (88)</p> <p>Epidermolysis Bullosa (89)</p> <p>Serious ichthyosis (including lamellar ichthyosis and ichthyosiform erythroderma) (90)</p> <p>Follicular keratosis (91)</p> <p>Progressive systemic sclerosis (92)</p> <p>Chronic Urticaria (98)</p> <p>Atopic dermatitis (99)</p>
14	<p>Blood and hematopoietic organ diseases</p> <p>Chronic anemia (40)</p> <p>Purpura (41)</p> <p>Haemophilia (63)</p> <p>Myelodysplastic Syndrome (MDS) (96)</p> <p>Refractory anemia</p> <p>RARS</p> <p>CMMOL</p> <p>RAEB</p> <p>RAEB-t</p> <p>Primary thrombocythaemia (97)</p>
15	<p>Ear and papillary diseases</p> <p>Chronic tympanitis (46)</p> <p>Vestibulum auris internae pathological changes (44)</p> <p>Sensorineural Tinnitus (100)</p>
16	<p>Others</p> <p>Follow-up medication after organ transplantation (13)</p> <p>Leprosy(Hansen's Disease) (64)</p> <p>Hemorrhoids (65)</p>

	Prostatic hypertrophy (66)
	Endometriosis (42)
	Menolipsis syndrome (67)
	Urinary incontinence (68)
	Yusho (polychlorinated biphenyl poisoning) (69)
	Congenital immunodeficiency disorders (53)
	Chronic prostatitis (proved by the sampled prostate secretion) (94)
